

# Make Your Own Eggbox Whale

## You will need:

- An eggbox
- Paper or card (blue or white to paint)
- Paint, paintbrush, pot
- Marker Pen
- Glue
- Scissors
- Messy apron

*Ask an adult to help you with scissors and cutting out*

- Cut your eggbox in half and save the lid for another project.
- Cut around a segment and include a strip from the pointy bit. This will help to make the tail of your whale.

- Give your eggbox section a coat of paint and leave it to dry.
- On a piece of blue paper or card (or painted card) draw a tail fluke and two fins
- Cut them out

- Take a strip of blue paper and cut small strips into it to about  $\frac{3}{4}$  of the way across the width. Don't cut right to the end.
- Roll the paper around a pen to curl it
- Glue along the uncut edge and roll lengthways to form the spout

- Now you are ready to assemble your whale.
- Glue the tail fluke to the longer strip of the eggbox section
- Glue the fins to the sides of the whale
- With the marker pen, draw some eyes and a smiley face

- Make a small hole in the top of your whale
- Add your water spout
- Now, give your whale a name!

**Take a look at the other eggbox and toilet roll sea-life characters you can make. You could draw or write a story about them. Have fun!**
